

**CAIR TECHNICAL WORKSHOP  
ON BUBBLE PUBLISHING  
Thursday, June 8, 2000  
10 A.M. to 3 P.M.  
Cal State University, Northridge**

***Designing Custom Optical Mark Read Surveys and Questionnaires***

*A "hands-on" workshop demonstrating the powerful and flexible features of Bubble Publishing Form Shop software. Learn how to quickly and easily convert and organize your surveys into opscannable forms at your own state-of-the-art Pentium workstation! At the completion of the workshop, you will be able to create customized opscannable surveys and questionnaires to facilitate your data collection projects.*

*Some of the topics covered:*

- \* Creating single and double-sided surveys*
- \* Manipulating text on your pages*
- \* Formatting and positioning response grids horizontally and vertically*
- \* Using the clipboards to reduce design time*
- \* Adding graphics to your page*

*Who should attend:* *current users of BP software who want to develop new skills, individuals planning to purchase survey form development software, individuals who have decided to purchase BP software and want hands-on training. The workshop is limited to 25 to guarantee personal attention during the training. The trainers have used BP software for survey development for more than 4 years and have developed hundreds of survey instruments and data capture forms. Lunch will be included in the workshop fees.*
