

How Cal Answers Transforms Institutional Research Through Decision Support

Presenters:
Jenna Allen
Sereeta Alexander
Andrew Eppig

Cal Answers reflects our commitment to be open and accountable to our students and to all Californians

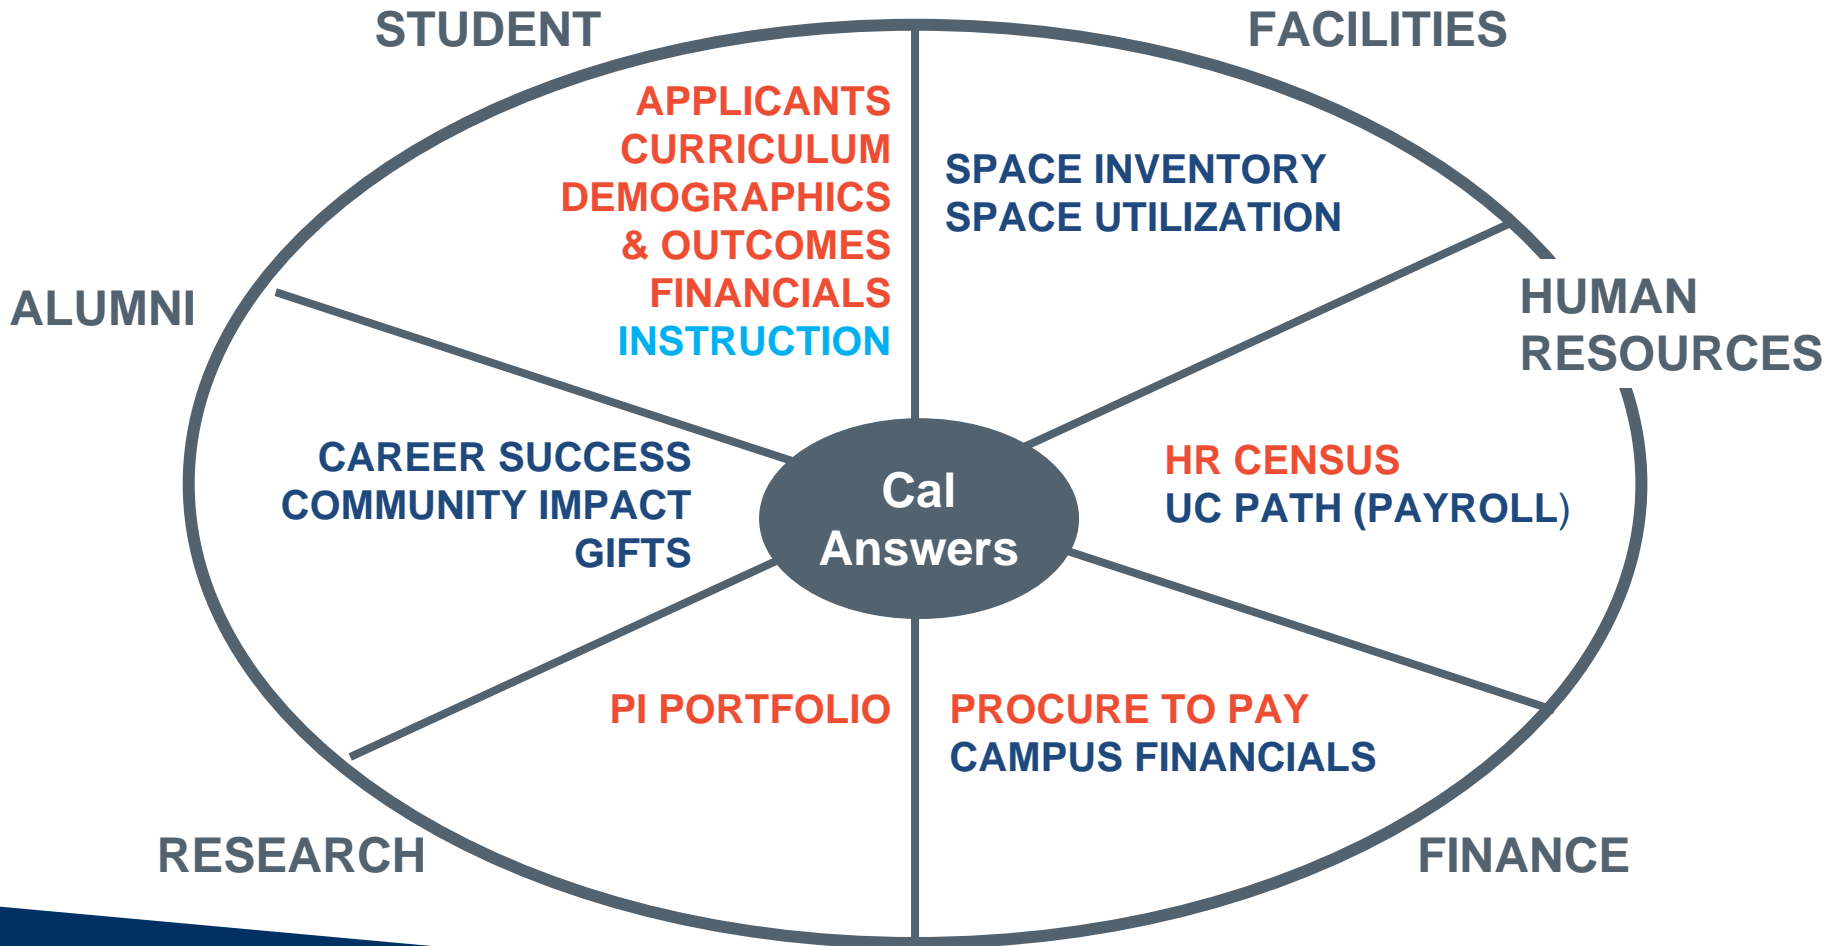

Supporting decision making with the old campus data landscape...

- Too many answers to the same question
- Data silos
- Basic data that's too hard to get to
- Complex analyses are too labor intensive

Building Cal Answers

AVAILABLE NOW: DATA IN CAL ANSWERS
ACTIVE INITIATIVE: DATA COMING SOON
FUTURE DEVELOPMENT

Now we have a clearer view of what the campus delivers and how students are doing using **Cal Answers**

- **Key Metrics**
 - Graduation & Retention Reports
- **Comparisons & Context**
 - Census Equity Comparison
- **Broad Campus Access**
 - Curriculum Dashboards
- **The Power of Integrated Enterprise Data**
 - Transforming Institutional Research

- Oracle Business Intelligence provides a business-friendly interface that allows non-technical staff to access and **analyze data** from campus systems.
- is a **web-based tool** (e.g., log in from anywhere using Internet Explorer, Safari)
- is a **secure environment** with user roles that ensure appropriate access to campus data
- **campus dashboards** can be accessed instantaneously

Intuitive and interactive tool

- We have released interactive dashboards that provide standard answers to typical Institutional Research (IR) questions

		Student Census Headcounts			
		2011 Fall	2012 Spring	2012 Fall	2013 Spring
Student Level	Campus Unit				
U	All	25,885	25,277	25,774	25,181

Grand Total		36,142	35,041	35,899	34,791

- With similar intuitive, point & click functionality, when you learn to use one dashboard, you've learned to use them all.
- Includes a restricted querying tool that allows for more complicated questions to be answered—particularly questions that span areas

Less Time Spent:

- reporting basic numbers
- cleaning & merging data extracts

More Time Spent:

- conducting complex and integrated analyses
- collaborating on and supporting data-driven decision making and strategic planning

***Our Goal:** to transform OPA from a standard institutional research office to one of the most trusted, innovative, and influential advisory groups on the campus.*

Curriculum At a Glance

This dashboard shows, at a glance, the key indicators needed to understand, manage, and plan the curriculum. At a Glance is comprised of metrics that summarize and provide useful context for the data featured in each Curriculum Dashboard:

- Five-Year Change in Primary Enrollments** shows, for the 5 years (fall and spring only) from 2008-09 to 2012-13, the percentage change in enrollments for the identified set of courses, along with a campus comparison. This metric serves as an entry point to the [Curriculum Long Term Planning Dashboard](#).
- Letter Grade Distribution in Primary Classes** shows, for the most recent academic year (fall and spring only), the percentage of each letter grade awarded for the identified set of courses, along with a campus comparison. This metric serves as an entry point to the [Course Grade Distribution Dashboard](#).
- Primary Classes at Least 90% Full** shows, for the most recent academic year (fall and spring only), the remaining seat capacity at the add/drop deadline for the identified set of courses, along with a campus comparison. This metric serves as an entry point to the [Weekly Enrollment Management Dashboard](#).

You can use this summary dashboard as a starting point to get a sense of the curriculum big picture on campus before digging deeper into the data. For each metric, we group the results by course level and include a campus figure to provide a meaningful comparison for the selected unit.
